

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

Claims 1-5 and 7-11 are currently pending in this application, with Claims 1 and 7 being independent. As indicated above, Claims 1, 3, 7, and 11 have been amended.

In the Office Action, Claims 1 and 2 were rejected under 35 U.S.C. §103(a) as being unpatentable over U.S. Patent 7,085,591 to *Gancarcik et al.* in view of Pub. No. US 2003/0197488 A1 of *Hulvey*; Claims 3-5 and 7-11 were rejected under 35 U.S.C. §103(a) as being unpatentable over *Gancarcik* in view of *Hulvey* and further in view of U.S. Patent No. 6,697,638 to *Larsson* or U.S. Patent No. 6,795,688 to *Plasson*.

Accordingly, in order to further distinguish the claims from the Examiner's cited art, as indicated above, Claims 1, 3, 7 and 11 have been amended to more clearly recite that an ID (Identification) key for entering a specific ID, wherein the specific ID discriminates between a wired communication service and a wireless communication service, which is not disclosed in any of the cited references. More specifically, it is respectfully submitted that neither the *Gancarcik*, *Hulvey*, *Larsson*, nor *Plasson*, either alone or in combination, teaches this recitation of the amended independent claims.

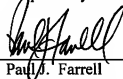

Therefore, based upon the amendments and argument above, it is respectfully submitted that amended independent Claims 1 and 7 are patentably distinct from the Examiner's cited art as none of these references teach or suggest for entering a specific ID, wherein the specific ID discriminates between a wired communication service and a wireless communication service. Accordingly, it is respectfully requested that the rejection of amended independent Claims 1 and 7 be withdrawn, and it is respectfully submitted that these claims are in condition for allowance.

Attorney Docket No: 678-1245 (P11192)

Without conceding the patentability of dependent Claims 2, 3, 4, 5, 8, 9, 10 and 11, based at least upon their dependence from independent Claims 1 and 7, respectively, these claims are likewise believed to be in condition for allowance.

Accordingly, all of the claims pending in the Application, namely, Claims 1-5, and 7-11 are believed to be in condition for allowance. Should the Examiner believe that a telephone conference or personal interview would facilitate resolution of any remaining matters, the Examiner may contact Applicant's attorney at the number given below.

Respectfully submitted,

Paul J. Farrell
